

# Have you ever been confronted with the following kind of cybercrime?

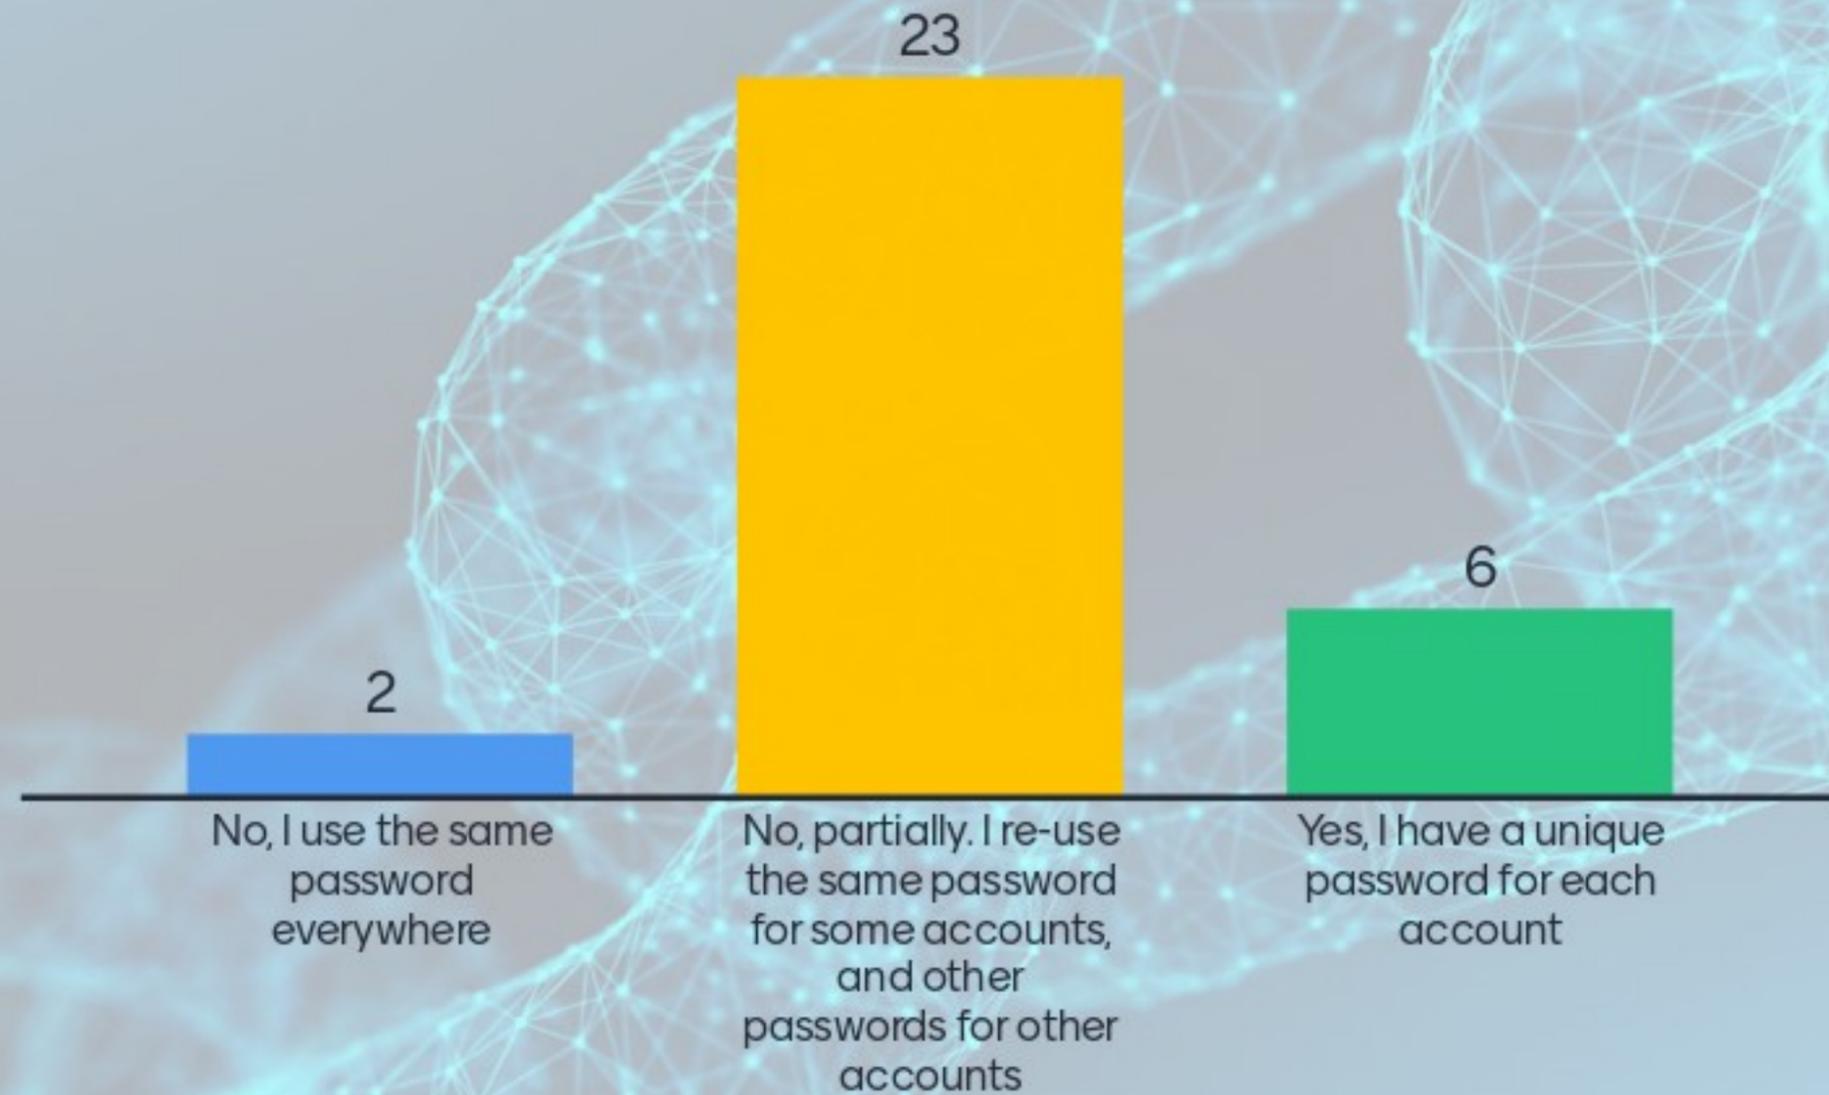

# What are you most scared of

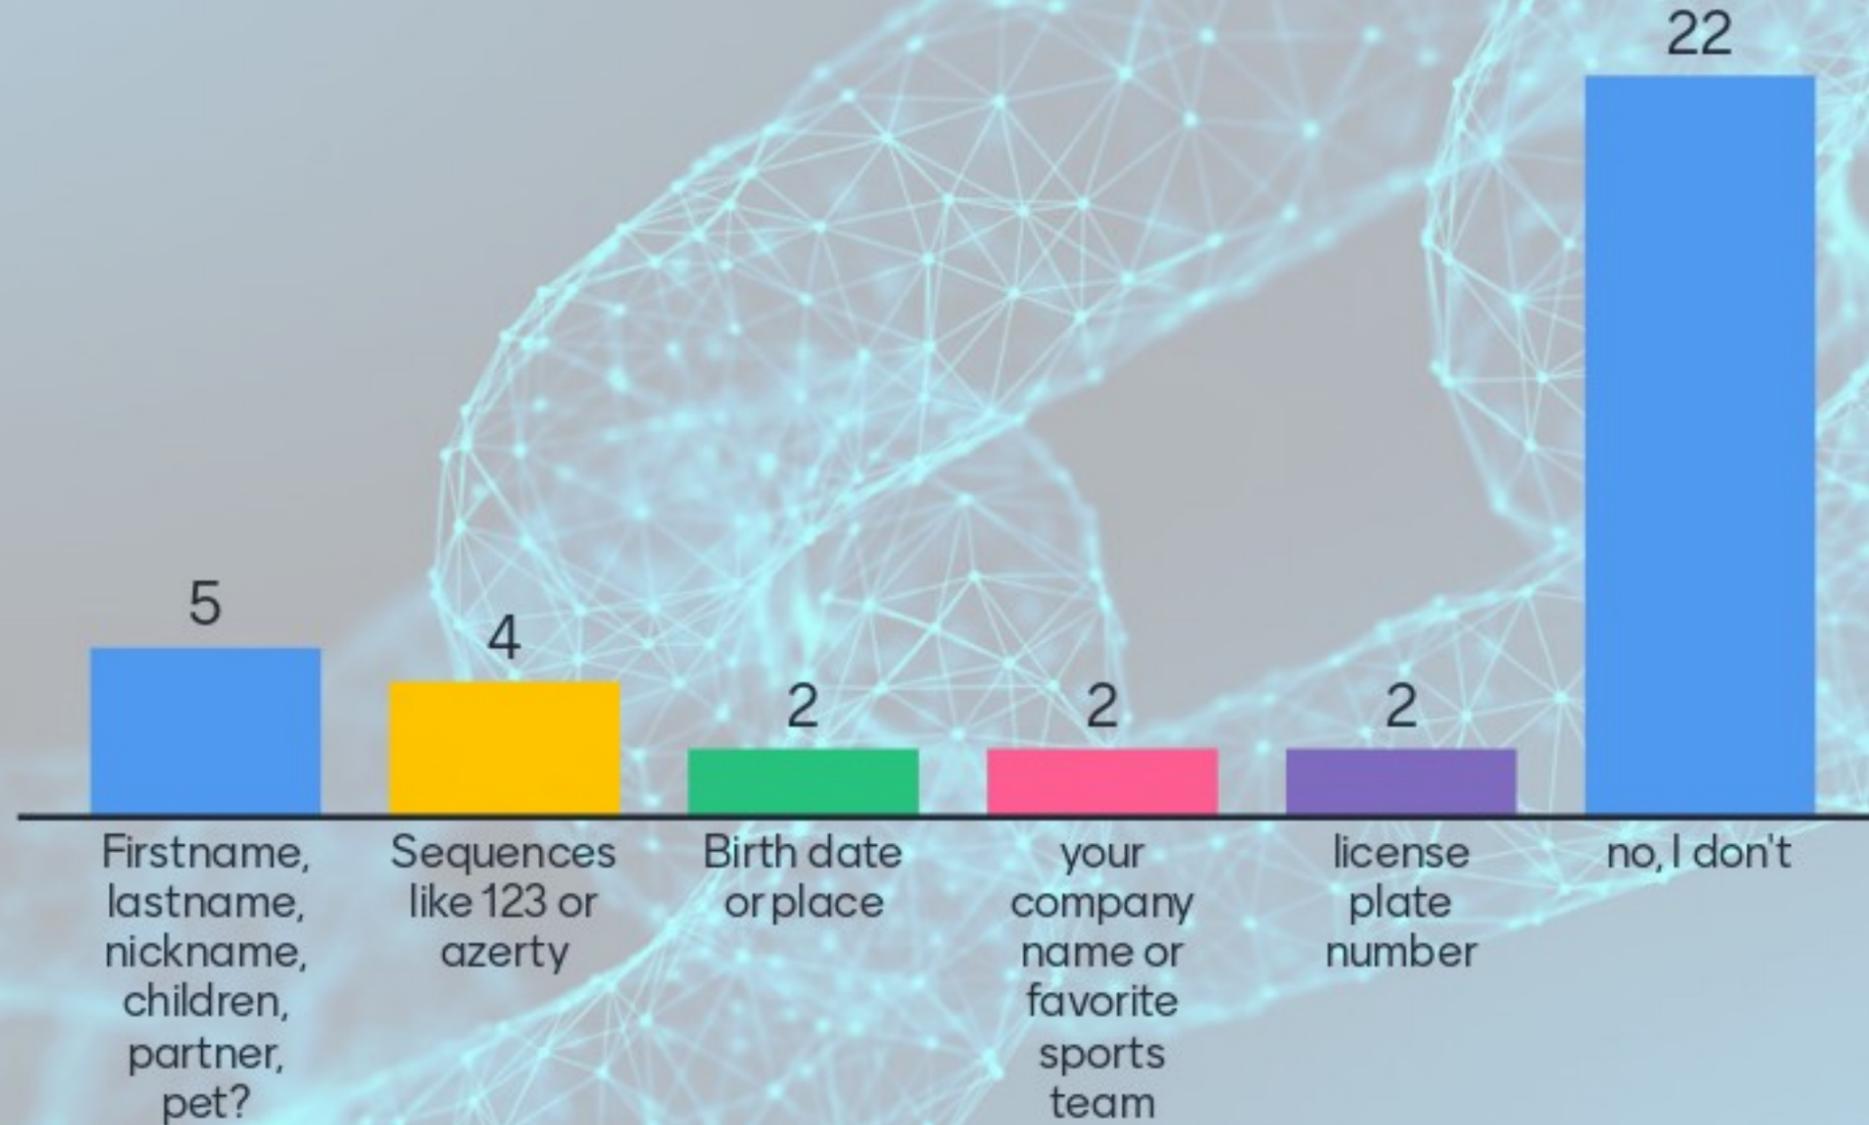

Do you know how many accounts you have on the internet?  
(including e-mail, social media, e-shops, work applications,  
...)?

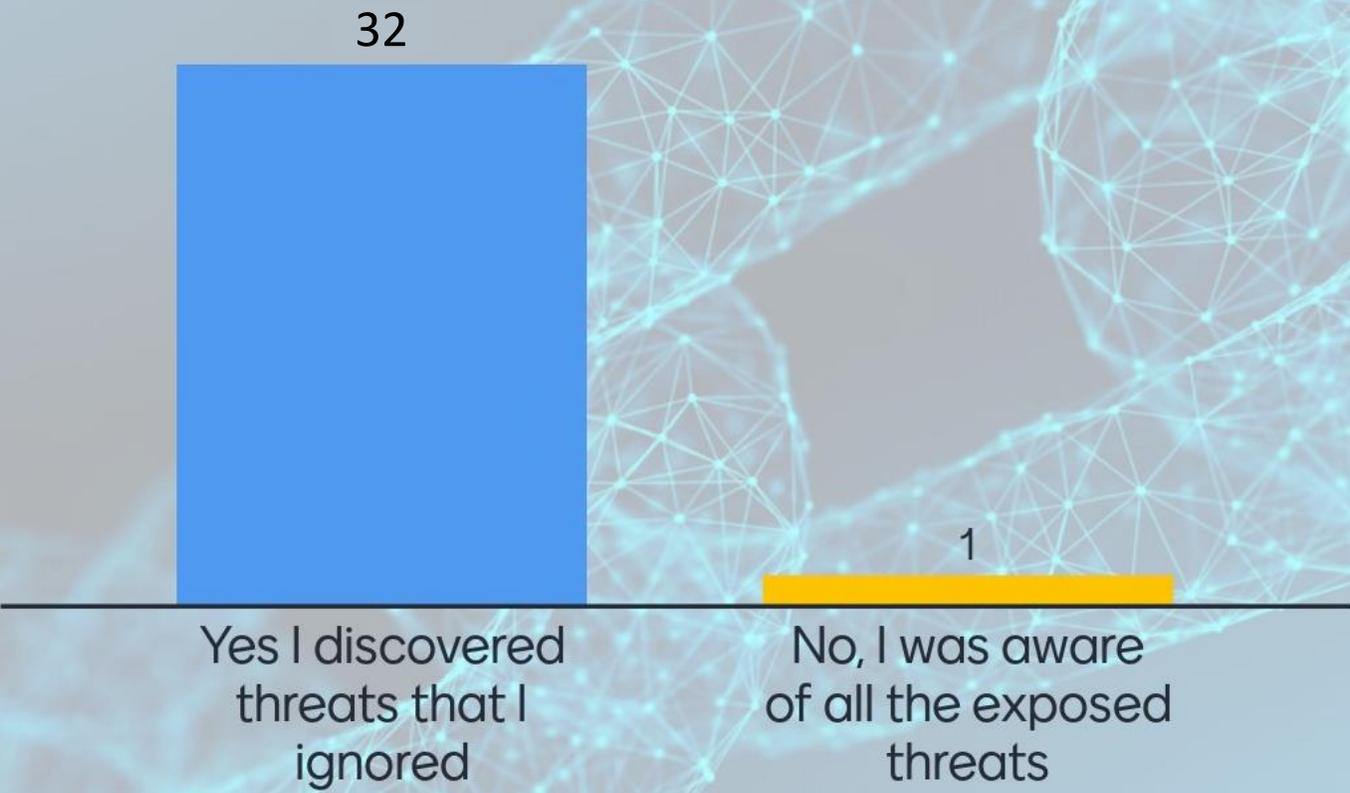

# Do you use different login credentials for all these existing accounts?

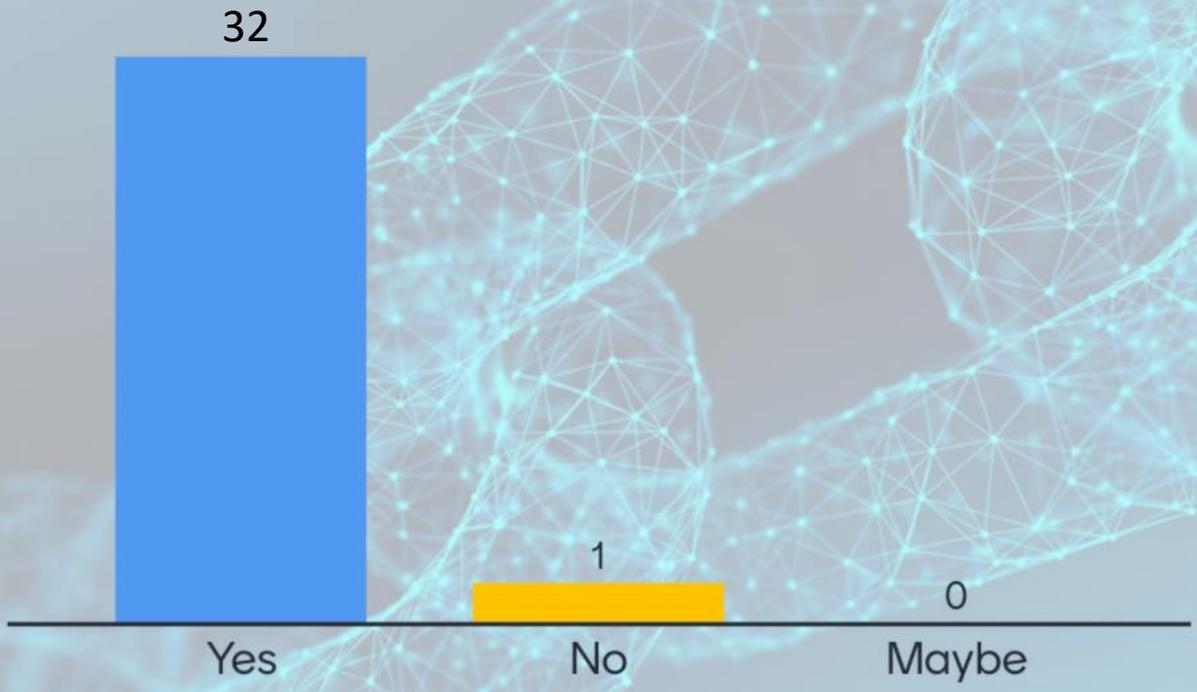

# Do you sometimes use parts of these elements in your passwords (password crackers make educated guesses)?

# I'm more aware of the dangers than I was before the event

# I will (un)consciously remember and apply certain tips spontaneously

# Please describe your impression in very few words in your own language

Heel interessant!

Eye-opening !

Sans aucun doute l'événement le plus instructif  
auquel j'ai participé. Merci et bravo

Very informative sessions, great location, thank you.

Scary!

Great insight

Very extensive & interesting coverage

Leerzaam oogopenend

Great session, very applicable to little solo enterprise

Very nice and instructif

Genoten

i like turning my keys 360 degrees

my impression is that of a beast, in a positive  
way<script>alert("rekt");</script>

Very hands on , Nice
